1. Introduction

In the General Terms of Use ("Terms"), "Keysians", "we" and "us" refers Keysians and we own and operate the website Keysians("the Site"). These Terms apply to you as a user of the Site and Keysians, including all the products, services, tools and information available on the Site.

Please read these Terms carefully before using the Site. These Terms apply to any person accessing the Site and by using the Site you agree to be bound by them. You should not access the Site if you think rules of the platform offend your right and interests. By using the Site in any capacity, you agree that you have read and understood these Terms.

Please read these Terms carefully to ensure that you understand each provision. This agreement contains a mandatory individual arbitration and class action/jury trial waiver provision that requires the use of arbitration on an individual basis to resolve disputes, rather than jury trials or class actions.

You are advised to check these Terms periodically to ensure that you are aware and comply with the current version of these Terms. 2. The Site of Keysians

As part of the Site, Keysians provides access to a decentralized finance application on the Ethereum blockchain, that allows lenders or borrowers of Ethereum assets to transact using smart contracts.

3. Eligibility

To access or use the Interface, you must be able to form a legally binding contract with us. Accordingly, you represent that you are at least eighteen years old and have the full right, power, and authority to enter into and comply with the terms and conditions of this Agreement on behalf of yourself and any company or legal entity for which you may access or use the Interface. You further represent that you are not a citizen, resident, or member of any jurisdiction or group that is subject to economic sanctions by the United States, or where your use of the Interface would be illegal or otherwise violate any applicable law. You further represent that your access and use of the Interface will fully comply with all applicable laws and regulations, and that you will not access or use the Interface to conduct, promote, or otherwise facilitate any illegal activity.

4. Assumption of Risk

By accessing and using the Interface, you represent that you understand the inherent risks associated with using cryptographic and blockchain-based systems, and that you have a working

knowledge of the usage and intricacies of digital assets such as ether (ETH), and other digital tokens such as those following the Ethereum Token Standard (ERC-20). You further understand that the markets for these digital assets are highly volatile due to factors including (but not limited to) adoption, speculation, technology, security, and regulation. You acknowledge that the cost and speed of transacting with cryptographic and blockchain-based systems such as Ethereum are variable and may increase dramatically at any time. You further acknowledge the risk that your digital assets may lose some or all of their value while they are supplied to the Protocol. If you borrow digital assets from the Protocol, you will have to supply digital assets of your own as collateral. If your collateral declines in value such that it is no longer sufficient to secure the amount that you borrowed, others may interact with the Protocol to seize your collateral in a liquidation event. You further acknowledge that we are not responsible for any of these variables or risks, do not own or control the Protocol, and cannot be held liable for any resulting losses that you experience while accessing or using the Interface. Accordingly, you understand and agree to assume full responsibility for all of the risks of accessing and using the Interface and interacting with the Protocol.
